

Project Description: E-Office
Value: £800,000.00
Start Date: January 2008
Completion Date: April 2008

This E/office specialises in leading edge service office environments for small businesses and young executives. E/office supports new ways of working in a stimulating environment.

The clients' selection of our team was motivated by track record in delivery and support. The project ranged from the design and fitting out of the reception, general work space and break-out areas. This included the partitions, joinery, wall, floors ceilings, IT and M&E design.

Pier Paulo Muchelli, Managing Director, E/office comments: "We are very impressed by what the guys have achieved for E/office It was essential that the environment reflected what we preach to our Clients. The team succeeded without great disturbance to the company's daily business life. The quality and level of site management was outstanding. We would not hesitate to use them again or refer them to anyone who would need their services."
